

Shown here on SableFrame2 Series

Elite's **CineWhite®** (Tension Matte White) has broad light dispersion through diffusion uniformity, black & white contrast and true color rendition making it the most versatile in Elite's tensions screen product lines. This tension PVC surface is the best choice for today's high-contrast ratio projectors in commercial or residential presentations. The **CineWhite®** material equals the performance to our MaxWhite® product, but improves the experience with the superior surface flatness. Uniform diffusion surface has black-backing to eliminate light penetration and is easily washable with mild soap and water.

Elite Screen series:
VMAX Tab-Tension Dual, Sable Frame 2, Lunette 2, Yard Master 2, ezFrame 2, Evanesce Tab-Tension B, Aeon, Designer Cut
